

DIGITAL FREIGHT PLATFORM

The future of freight is digital! To keep pace with the demands of modern freight forwarding and stand out from the competition, you need to work smarter, not harder. The Magaya Digital Freight Platform is a flexible, connected, and completely customizable logistics platform that eliminates manual tasks and sets you up for sustainable growth.

1 **Magaya Digital Freight Portal**

Go digital with a branded and customized web portal for online schedules, quotes, bookings, purchase orders, tracking, warehouse visibility, invoices, payments, and reporting. Your customers will appreciate the transparency, control, and ease of use of interacting with you online, and you'll enjoy the dramatic time savings you get by eliminating countless email and phone calls.

2 **Magaya Rate Management**

Using spreadsheets to manage complex rates, quotes, and contracts is inefficient and puts data in silos, leaving key stakeholders out of the loop. Magaya Rate Management puts you in total control of your rates. No matter where or what format your rate data lives in, Magaya can digitize and centralize it for you to easily access and share with customers and across teams.

3 **Magaya Supply Chain**

Exchange information across all teams and stakeholders in real-time, eliminating the silos that cause delays and errors. With Magaya Supply Chain, you can manage all your multimodal logistics operations in a single system, from freight quotes and customs documents, to warehouse receipts, shipments, invoices, and more.

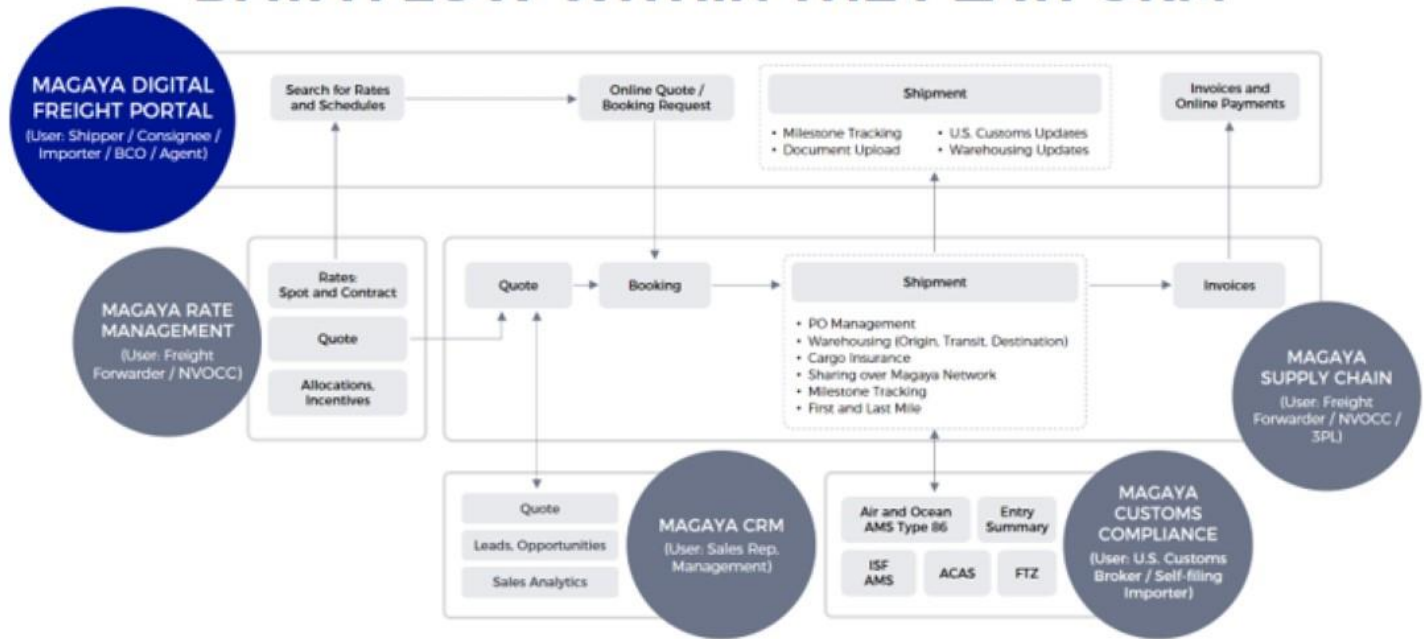

4 **Magaya CRM**

Put your customer data in the spotlight with Magaya CRM. When used with Magaya Supply Chain, this time-saving solution eliminates redundancies and fosters customer-centric collaboration across teams with greater visibility, streamlined processes, and built-in business intelligence.

5 **Magaya Customs Compliance**

Magaya Customs Compliance keeps you compliant in a fraction of the time with connected features, intelligent automation, and an intuitive interface. With real-time visibility into all your transactions, duties, fees, and CBP response messages in a single window, you won't miss a beat when it comes to compliance.

DATA FLOW WITHIN THE PLATFORM
